## Before you arrive

### Access to central IT Facilities

In advance of the start of term, you will be sent your University of Oxford Single Sign On IT account details, giving you access to central IT services. Information on the services available, your Oxford email account, and how to set up your IT access, is available on the [Welcome to IT](#) web pages.

### Starting your University Registration Process

An essential part of being a student of the University is the annual completion of registration. As a new student you should complete the first step of your University registration by verifying your details online using [Student Self Service](#) before you arrive. You will need to use your Oxford Single Sign On details to access Student Self Service.

You need to register in order to attend your programme of study, use your University email account, obtain your University Card, print an enrolment certificate, be eligible to take examinations and access your results (if applicable). Your status as a member of the University is not confirmed until your registration has been completed by the College, which usually takes place in Week 0 of term.
